

4-Color Process Printing (for Rain umbrellas)

No matter how elaborate your logo might be—gradients, multi-color designs, tight registration—4-Color Process Printing makes the job possible. This cost-effective option allows you to have your logo as you need it, without any limitations screen-printing might have.

4-Color Process Imprinting Costs: Per Imprint, on Rain Umbrellas:

12	24	48	96	240	480	1008
14.00	7.00	4.25	4.00	3.75	3.50	3.00(C)

**Add the process color charge above to almost any handheld rain umbrella in our line*

- Setup: \$120.00(C) per design (unlimited number of colors allowed at no additional cost)
- Pre-Production Proofs: \$75.00(C) plus cost of set-up, item, and run charge
- Reorder Setup: \$120.00(C)
- Production Time: 10-12 business days from all approvals

Additional notes:

- 4-Color Process is only available on outer umbrella canopy panels. It cannot be used with undercanopy printing, wide tie printing, or case printing.
- Process color is not available for the SB-4675 or SB-4676 due to the special 2-ply fabric.
- PMS matching does not apply to Process printing since Pantone Coated inks are not used like in screenprinting. You can still choose to provide us with PMS numbers, as a reference.
- Rush orders are not available with process color printing.
- Some art-related restrictions may apply, such as minimum line weights or clear space
